Low birth Full House son with exceptional phenotype. Dam stems from one of USAs leading cow families. His grandam was purchased as a heifer by Alpine and Vermont Angus, for a then near record \$36,000. His Structural scores really did hit the Jackpot - perfect 5s for all feet and leg scores, as well as sheath. It is pleasing to see how well our bulls have assessed for structure (page xx) as we have placed ...

Strong Z3 son out of a herd bull producing cow family. Not many Angus bulls can carry the strength through their body that this guy can. His dam and her sisters have all produced stud sires and this bull looks ready to live up to the family tradition. At scanning highest raw EMA, IMF and scrotal of sale bulls, near perfect Structural scores and top 10% 600 Day Wt, 15% EMA & 30% all Indexes.

Same sire with a bit of extra frame thrown in. At scanning his weight, EMA & IMF raw data was in the top handful of the Spring bulls even though he is out of a first calving heifer! An incredible birth to growth spread with some other pretty fancy numbers thrown in. Top 1% CEDir & GL, 5% all Indexes, 10% growth, 15% Birth Wt & Scrotal & 20% IMF.

This next Emperor son packs plenty of punch as well, while maintaining a moderate birth weight. Once again a high performance package that produced the goods at scanning coming in amongst the top for weight, fat depth and raw EMA. Not many bulls can offer this combination of fat cover & growth. Top 5% growth & all Indexes, top 10% scrotal & top 15% fat.

**Traits:** BWT,200WT,400WT(x2),SS,FAT,EMA,IMF,DOC

Last of this years Casinos but there will be more next year. Still got the length, just a bit early maturity than the last two. Still if you look how consistently the sire breeds don't know if it really matters which one you get.

Sire is top priced Tasmanian bull from a few years ago. From the Infinity line that produces a shorter, thicker set type of animal with plenty of early maturity and this bull is a perfect example.
