This bloke interesting for his Millah Murrah pedigree with his phenotype and very attractive figures. True calving ease with growth, BW at 2.9 (29kg) to +114 for 600 day is fairly special.																	Angus Breeding	Domestic	Heavy Grain	Heavy Grass

Look at the calving ease and carcass data here. We used Myra Freeman F26 on our yearling heifers with no problems and Te Mania Infinity 04 and Rennylea E11 have been used on hundreds of heifers, so plenty of calving ease consistency here.
